

## OFFICER LOCATES STOLEN PROPERTY

FINDS MANY OF THE HORSES  
STOLEN BY HALDEMAN, SWINK  
AND WARREN

As a result of continuous efforts of Sheriff Jack White, it is probable that the recovery will be effected of the carload of horses stolen from ranchers of this county by Haldeeman, Swink and Warren, the three men under indictment upon the charge of shipping stolen horses to Arkansas. A number of the animals have already been located, it is understood.

The thieves whose boldness is almost unmatched, stole horses in this county and when about thirty-five had been collected, drove them overland to Denning, N. M., where they were put aboard a stock car and shipped east to be sold. It was supposed that the thieves had gone across the line into Mexico and it was only after hard work on the part of the sheriff's office that the real direction taken was ascertained.

Two of the men had in the meantime doubled back through Bisbee and on into El Paso where they were apprehended and, habes corpus proceedings having failed there, were turned over to Mr. White. Later all three thieves were indicted by the grand jury upon the charge.

The next step was to take up correspondence with Arkansas officials who have since been tracing the horses. A recent letter tells Mr. White that the greater portion of them have been recovered.

White, who was in Bisbee yesterday, is somewhat elated over his success in the affair.

the very best accident insurance, with salaries and fictitious incidental expenses eliminated and no employee receiving more than \$125 monthly will be deducted from or receive benefits more than \$125. Every employee is urged to secure a copy of the by-laws and study the plan. The by-laws set forth very clearly the liability of the policy holder and the liability of the association.

The company agrees to temporarily advance funds when necessary for payments of benefits at due date.

## HORSE AND RIDER ROLL DOWN MOUNTAIN SIDE

DR BLEDSOE HAS THRILLING EXPERIENCE WHILE ON PROFESSIONAL CALL

A narrow escape from serious injury was experienced recently by Dr. N. C. Bledsoe of the C. & A. staff, when a spirited young saddle horse, the property of Dr. Bledsoe, shied at some passing object and unseated its rider.

Horse and man rolled down a steep embankment, Dr. Bledsoe managing to keep just far enough ahead to avoid the nag rolling over upon him. Dr. Bledsoe had been summoned by telephone to attend a patient residing on the High road on School hill and, his own horse not being convenient for use, secured that of Dr. Reese to make the visit. Just before reaching his destination the horse shied violently and ran between a house and the embankment. The space between was so small that in order to avoid injury Dr. Bledsoe jumped off the animal and losing his footing started to roll down the embankment. The horse also fell and started to roll after him. The experience was quite a trying one for a time, but by good fortune neither man nor animal suffered more than a few scratches and bruises as a result.

## GEN. GRANT STIRS UP CRITIC HORDE

SAYS AMERICA HAS NO RE-  
SOURCE IF CANNON AND GRACE  
WERE INSURRECTORS.

CHICAGO, Dec. 1.—An interview purporting to have been given by General Fred D. Grant appeared in a Chicago newspaper last Saturday. In this interview the commander of the department of the lakes was quoted as saying the United States would have no claim for reparation upon the Government of Nicaragua if it were found Cannon and Grace were insurrectionists.

After the interview had caused comment at Washington, General Grant said he had expressed his personal opinion that no reparation could be demanded in the Nicaraguan case if the Americans executed were found to be insurrectionists.

### TAKES ISSUE WITH GRANT.

WASHINGTON, Dec. 1.—General Frederick D. Grant, reported utterances regarding the execution in Nicaragua of two Americans, Cannon and Grace, probably will not be a subject for action by the Secretary of War. The legal officers of the government, however, well versed in international law, take a view of the matter entirely at variance with that of General Grant and hold there could be no legal or other justification for the killing of Cannon or Grace.

### Few Shipy Settled.

In western China European travelers recently found a simple method of settling disputes. One of them writes: "While we called the midday halt at Ta-chu-de, we asked the villagers concerning some new graves which we noticed in a field close by. They answered: 'Our head man and two others were killed three months ago in a feud with a village higher up the hills.' 'Is it settled now?' 'Yes.' 'Did you report the matter to Lac wo?' 'No.' 'What would have been the use?' 'No.' 'What settled the matter yourselves?' 'How? 'Oh, we killed eight of the other'—Perchance.

## REGISTRATION BRINGS OUT SOME SURPRISES

ONLY THOSE WHO CAN READ  
AND WRITE MAY VOTE AT  
ELECTION

Owing to the strictness with which the local option registration is being conducted, it is estimated that the present enrollment will total about 5,000, which is about 2,000 below the registration of last year.

The reason for this is that there are many people who have voted for years who cannot write, some who cannot read and then some who can neither read nor write. This is bringing about results which have not been looked for in some directions and is liable to have a material bearing upon the result.

In Bisbee, also in Douglas, many people are taking out their first naturalization papers, thinking they will be able to vote at the January election as a consequence. Those who have tried to register, however, have found the "Nothing doing" sign hanging out in verbal prominence, and it will have no other effect than to enroll them on the list of prospective citizens.

One registration officer had a deaf and dumb man enroll the other day. The officer was at sea for some time on the proposition of how to ascertain if the man could read. He was not familiar with the deaf and dumb alphabet and while the applicant got hold of the constitution and made all kinds of signs, that didn't convince the officer. Finally, by signs, he instructed the applicant to read a portion of the constitution and then write it, which he did satisfactorily, so his name went down.

## CONVICTED DRUNK OFFERS CHECK FOR FINE

COURT GROWS SUSPICIOUS AND  
FINDS NO FUNDS IN BANK TO  
MEET IT

One of the duo of drunks before Justice Burdick yesterday morning surprised the judge by declaring his willingness to pay his fine of \$6. He tendered a check on the Bank of Bisbee for the amount, which Justice Burdick sent Constable McRae to the bank with to see if it was good, meanwhile letting the fellow go.

Constable McRae returned with the information "no funds," so he was sent out with instructions to find the culprit and jail him again.

"I thought I had the money," said the offender, "I met go down to Lowell and I'll get it."

But for fear he might forget Constable McRae went along. Somebody was found who was willing to advance the six "bucks" so the man was let go.

One Mexican went to jail for a like offense. Justice Murphy at Lowell jailed two more. Otherwise the courts were as calm as a summer's morn.

## KNOX DECLARES NATION RESPONSIBLE

ASSERTS UNITED STATES WILL  
SEEK REPARATION FOR DEATH  
OF AMERICANS

WASHINGTON, Dec. 1.—In delivering passports to the Nicaraguan charge d'affaires late today, Secretary Knox informed him by note that the United States will hold personally responsible the men causing the torture and execution of the two Americans, Grace and Cannon, recently killed in Nicaragua.

In the note Secretary Knox also informed the charge d'affaires that Nicaragua would be held to an observance of the principles of the Washington conference of the South American republics in the interests of general peace and harmony.

### The Reform of Society.

It is a mistake to imagine that human society can be reformed by mere organization; for the church at least, treatment in the mass can never take the place of treatment of the individual. You must have that personal effort, the one life bending down to lift up the other.—Perchance.

## WAR SECRETARY SUGGESTS CHANGE

ASKS CONGRESS TO DO AWAY  
WITH MANY OLD CUSTOMS IN  
HIS DEPARTMENT AND ADD  
NEW ONES.

(By Associated Press.)

WASHINGTON, Dec. 1.—Many changes in the military establishment are suggested today by Secretary of War Dickinson in his annual report. He recommends:

A change in the Roosevelt physical tests, so as to require of officers, in addition to an annual weekly riding or walking test.

The division of the United States into territorial and tactical districts so that the organized militia of the states may be conveniently combined with the regular army stationed therein into permanent brigades, divisions and corps for instruction and tactical organization.

The location of troops in or near principal cities instead of distributing at remote forts; to meet the requirements of economy, the possibility of rapid movement and the training of the militia.

More officers for the army and promotion on a merit system.

Liberal appropriations for the completion of fortification projects of the Philippines, Honolulu and Pearl Harbor.

Establishment of a national park among citizens and school boys.

Establishment of a national park at Niagara Falls to preserve its scenic feature.

The secretary made public his estimates to congress for the coming fiscal year, amounting to \$953,253.99, or \$8,000,000 less than was appropriated for the present fiscal year.
